

**(120mmx150mmx225mm)Pressure  
Control****RH-4045**

- The pressure controller automatically starts and stops the water pump when any tap or valve in the system is opened or closed  
It completely replaces traditional pump control systems, including the pressure switch, pressure tank, check valve, and more
- It is suitable for all household water systems
- A reset button is included for restarting after dry running protection is triggered
- This electronic water pump automatic pressure control switch is made of durable nylon material, ensuring a long service life

Model	RH-4045
Voltage	220-240V
Frequency	50Hz
Current	10A
Power	1.1KW
Starting Pressure	1.5Bar
Adjustable Pressure range	1.2-2.5Bar
Max. Working Pressure	10Bar
Max. Working Temperature	55°C
Body Material	Nylon
Dimensions	120x150x225mm
Power Cable Length(with Euro Plug)	1m
Motor Cable Length	30cm
Net Weight	1.25Kg
Gross weight	1.41Kg
packaging	Color Box
Accessories	/
