

Electric Hoist

RH-4131

- Equipped with a powerful motor with copper winding, produced under European CE standard and safety class IP54
- Body made of durable steel suitable for use in tough conditions
- Equipped with twist-resistant steel wire rope with suitable strength in its 18m length
- Thermal shut-off system to protect the engine
- Equipped with an upper automatic cut-off system

Model	RH-4131
Power	550W
Voltage	220V
Frequency	50Hz
Load capacity	Standard: 150 Double: 300
Height	Standard: 18 meters Double: 9 meters
Speed	Standard: 10 meters per minute Double: 5 meters per minute
Cable length	18m
Cable diameter	3.05mm
Cable strength	≤750kg
Supplied in	Ronix color box
