

**Electric Hoists**

**18m-1000kg**

**RH-4136**

- Robust, Powerful motor with copper winding to ensure long life
- Provides with IP54 safety class standard
- Durable Steel body suitable to work in difficult situation and workpalce
- Equipped with twist-resistant steel wire rope with suitable strength with a length of 18 meters
- Equipped with Thermal switch to protect motor from damage
- Equipped with automatic cut-off system

Model	RH-4136
Power	1600 W
(Double) Lifting Capacity	1000Kg
Voltage	220
(standard) Lifting Capacity	500Kg
(Double) Lifting Height	9m
(Standard) Lifting Height	18m
(Double) Lifting Speed	5m/min
(Standard) Lifting Speed	10m/min
Cable Length	18m
Cable Diameter	6mm
Cable Strength	>2500Kg
