

Hand Pump
415ml

RH-4205

- This electronic water pump automatic pressure control switch is made of Abs+Nylon material, durable and long service life
- For domestic waterworks, pumps, compressors
- Automatically controls centrifugal pumps, domestic water systems depending on the opening or closing of the water consumers
- Reset button for restarting after the dry running disconnection
- Max current: 10A,Max working pressure: 10Bar

Model	RH-4205
Body material	Steel
Hose material	Rubber
Valve material	PA
Valve type	Schrader, Presta
Number of cylinders	One cylinders
length Hose	650mm
Air volume	415ml
The length of the wind cylinder	500mm
Maximum outlet wind pressure	120psi
Base length	125mm
Pump size	610×208×55mm
Weight	0.796Kg
Supplied in	Plastic bag
Includes	D3+ball needle+d12
