

Rechargeable Area light
3000lm

RH-4251

- Thanks to the special chips, floodlights last a long service life than others, keep indoor and outdoor lighting safe and reliable. 4400mAh high capacity battery guarantees long working hours (2-10 hours depending on lighting level).
- The rechargeable LED work light has 5 lighting modes. White 100%-50%-Red strobe -Off/ Side COB 100%-50%-Off. The LCD display shows battery status and is ideal for camping, hiking, car repair, emergency machine
- The rechargeable area light has an integrated USB charging cable for input and output and comes with a USB charging cable
- It can be charged via the Type-C charging port and charged via adapters, mobile devices, laptops and other devices with USB output.

Battery Capacity	4400mAh
Power Supply	Li-ion Battery 18650 7.4V 4400mAh
Type of LEDs	SMD+COB
Light Color	White+Red
Color Temperature	6000K-7000K
Lighting Mode	SMD White 100%-50%-Red Strobe-Off Side COB 100%-50%-Off
Beam Angle	360°
Luminus Flux	SMD 3000LM - 1500LM Side COB 1000LM-500LM
Water Resistance Level	IP44
Runtime	SMD 100% 2hours- 50% 4hours Side COB 100% 5hours- 50% 10hours
Charging Time	5-6 Hours
Dimensions	126x126x405mm
Body Material	ABS+PC+Aluminium
Cable Length	1M Type-C USB Cable
Weight	0.83Kg
Included in	1m Type-C USB Cable
Supplide in	Color Box
