

Soldering Iron
40W

RH-4416

- Ideal for soldering applications that require mobility or a long reach
- Features a light-weight, ergonomic design that can be used comfortably
- Efficient ceramic heater provides accuracy and stability
- Fast heat-up for high productivity
- Mechanism to roll and position the tip easily when working
- Constructed from materials designed to prevent deterioration and increase durability
- Includes a stand for holding the iron when not in use

Model	RH-4416
Power	40W
Voltage	220V
Frequency	50Hz
Preheat	3-5min
Output Temperature	450°C
Weight	0.22kg
Supplied in	Ronix color box
