

**4 Flame Gas blow torch**

**32mm**

**RH-4573**

- The flame can be easily adjusted and locked with just a light sliding of the thumb on the safety lock adjuster flame
- This 4 flame butane torch has a larger heating area and stronger firepower; using piezoelectric ignition technology, just unlock the safety button and press the ignition button to light up. The safety lock can be adjusted after ignition to hold the flame and release the index finger on the ignition button. Flame temperature can reach up to 1300°C/2372 °F
- Fully automatic electronic ignition, safe and easy
- Wind proof, moisture proof and water resistant, better than electric welding.
- Ergonomic design for comfortable holding in the hand
- Suitable for restaurant, household, picnic, hiking, camping and other outdoor activities
- It can be fixed on butane tank, which can be replaced
- GAS TYPE: butane Tanks with spiral Interface

Model	RH-4573
Calibre of spout	0.4mm
Material	Stainless steel,Zinc alloy, ABS,Cuprum
Max flame temperature	1300°C
Type of gas	Butane gas
Appliance category	Direct pressure-butane
Igniting method	Automatic piezoelectricity ignite
Dimensions	21.3×8.6×3.6cm
Weight	0.29Kg
Supplide in	Color box
