

**DC Arc Welding Inverter**  
**200A, 9.5KVA**

**RH-4602**

- IGBT technology for better welding quality, greater welding penetration, reduced energy consumption and increased efficiency
- Unbeatable automatic short circuit current protection, easy ignition, less spark, provides excellent arc strike performance at rust surface
- Run 5mm MMA electrode
- Multi protection of over voltage, over heat, over current and over load protection
- Hot start, anti-stick, less spark, reliable. Ideal welding equipment for entry-level welder.
- Equip with 2 volumes (Current, Arc force) for easy and better welding setting
- Digital display provides highly accurate welding
- Professional cooling system in order to increase efficiency and continuance welding

Model	RH-4602
Input Voltage	220V±15%
No-Load voltage	65v
Frequency	50-60Hz
Output Current range	30-200A
Rated Output Voltage	25.6V
Max Input Power Capacity	9.5 KVA
Max Input Current	43A
Power Factor	0.75
Duty Cycle	60%
Insulation Class	F
Protection	IP21S
Electrode Diameter	5.0 - 1.6
Includes	Connecting Clamp + 2 m Ccable, Welding Pliers + 2 m Cable
