

DC Arc Welding Inverter
130A

RH-4603V

- IGBT technology for better welding quality, greater welding penetration, reduced energy consumption and increased efficiency
- Unbeatable automatic short circuit current protection, easy ignition, less spark, provides excellent arc strike performance at rust surface
- Run 3.2mm MMA electrode
- Multi protection of over voltage, over heat, over current and over load protection
- Hot start, anti-stick, less spark, reliable. Ideal welding equipment for entry-level welder.
- Equip with volume Current for easy and better welding setting
- Digital display provides highly accurate welding
- Professional cooling system in order to increase efficiency and continuance welding

Model	RH-4603V
Input voltage	127V±15%
No-Load voltage	65±5V
Out-put Current Range	20-130A(20-120A)
Rated Out-put Voltage	24.8V
Max Input Power Capacity	4.8KVA(3.5KVA)
Max in-put Current	38A(27.6A)
Power Factor	0/75
Duty-cycle (25°C)	60%
Insulation Class	F
Protection	IP21S
Electrode Diameter	1.6-3.2
Supplied in	China
Accessories	1: 1.8M electrode holder 2: 1.2M earth clamp 3: belt 4: manual 5: welding mask 6: steel brush
