

**Welding Chipping Hammer**

**300g**

**RH-4753**

- The Welding chipping hammer features a tapered tip and a double bevel at the end, which is suitable for welders, and can be used on building sites, car maintenance, as well as breaking ice and knocking brick slag. It can also be used as a life hammer. Efficient, convenient and labor-saving
- Coil Spring Handle: The spring handles are designed to absorb vibration. Percussion buffering does not hurt hands. The hammer end design of the hanging hole, easy to hang on the nail board or nail, so that its storage and use more convenient and effective
- The welder's chisel hammer is made of stainless steel, which is durable and will not rust. The overall forging technology of the welder chisel hammer is excellent, the cutter head processing technology is exquisite, and the service life is long
- The welder hammer one end is a flat chisel and the other end is a tapered chisel for getting into tight places. Excellent for removing slag and welding slag. Conical nose tip surface paint treatment, smooth and scratch-free
