

Hydraulic Portable Body Repair Jack Kits
4T

RH-4944

- The kit is made of metal, which is durable and not easy to rust and corrode
- Solid material and stable structure enable the product to bear about 4000 Kg of weight, so it is possible to use it without worrying about the fracture
- The kit is hydraulically driven and adopts a leakless design, providing a strong security guarantee for your work
- The pump has an automatic overload system, which can effectively prevent the plunger and accessories from being damaged
- The long handle can ensure you low pumping effort when you are at work

Model	RH-4944
Material	Q235
Gross weight	20kg
Hose Length	1550mm
Load Capacity	4Ton (4000 Kg)
Net Weight	16kg
packaging	Carton
Maximum lifting height	390mm
Cylinder Min Height	270mm
Oil Tube Length	1550mm
Size of Extension Tubes	Φ30×496mm/ Φ30×418mm/ Φ30×215mm/ Φ30×125mm/Φ30×82mm
Maximum pressure	9135PSI
