

Hydraulic Portable Body Repair Jack Kits

10T

RH-4945

- **Material:** The kit is made of metal, which is durable and not easy to rust and corrode.
- **Strong lifting capacity:** solid material and stable structure enable the product to bear about 10000 kg of weight, so it is possible to use it without worrying about the fracture.
- **The kit is hydraulically driven and adopts a leakless design,** providing a strong security guarantee for your work.
- **The pump has an automatic overload system,** which can effectively prevent the plunger and accessories from being damaged.
- **The long handle can ensure you low pumping effort when you are at work.**

Load Capacity	10000kg(10T)
Maximum Pressure	7250PSI
Hose Length	1550mm
Maximum Lifting Height	530mm
Material	Q235
Cylinder Min Height	380mm
Oil Tube Length	1550mm
Size of Extension Tubes	φ42×550mm/φ42×300mm/ φ42×300mm/φ42×200mm/ φ42×100mm
Net Weight	26.5kg
Gross Weight	33.5kg
Packaging	Carton
Supplied in	Color Box
Body Material	ABS+PC+Aluminium
Cable Length	1M Type-C USB Cable
Weight	0.83Kg
Included in	1m Type-C USB Cable
Supplide in	Color Box
