

**Ratchet Steel Jack**  
**1.5T**

**RH-4946**

- The precisely machined gear box with optimal gear ratio ensures a minimum of effort and smooth operation
- The load can be positioned either on the head or the claw
- By turning the operating lever the Jack moves smoothly and conveniently up and down along the rack
- The load is held securely in position. Inside the load brake the axial brake pressure is generated by the load itself, it is proportional to the size of the load
- The self-locking, anti-kickback operating lever reduces the risk of injuries

Model	RH-4946
Load Capacity	1.5T
Maximum Lifting Height	600mm
Minimum Lifting Height	60mm
Stroke	300mm
Material	Q235
Net Weight	13.5Kg
Gross Weight	16Kg
Packaging	Carton
