

Ratchet Steel Jack

5 T

RH-4948

- The precisely machined gear box with optimal gear ratio ensures a minimum of effort and smooth operation
- The load can be positioned either on the head or the claw
- By turning the operating lever the Jack moves smoothly and conveniently up and down along the rack
- The load is held securely in position. Inside the load brake the axial brake pressure is generated by the load itself, it is proportional to the size of the load
- The self-locking, anti-kickback operating lever reduces the risk of injuries

Model	RH-4948
Load Capacity	5000Kg
Maximum lifting height	730mm
Minimum lifting height	80mm
Stroke	350mm
Material	Q235
Net Weight	28.5Kg
Gross weight	30Kg
packaging	Carton
