

HSS Bimetal Hole Saw Set

15 Pcs

RH-5200

- Constructed from high-quality Bi-Metal for rust proof, 2mm thick, much more durable and great heat resistance
- Sharp teeth perfect for hole cutting on metal, wood, PVC board, plastic and drywall; clean and smooth cut; high precision.
- Different mandrels for saws of different sizes, compatible with most drills of other manufacturers; user's manual provides clear instructions and details about how to use safely
- Everything in this kit is well organized in a solid Aluminum case, great for storage after using and easy carrying out for work; free of worry about losing small parts in the kit after handling
