

Drill Bit
3.5mm

RH-5352

- HSS MATERIAL, Industry grade high speed steel with high hardness, good wear resistance and durability
- Straight shank for standard drill chucks and collet chuck to hold firmly, assuring accurate centering
- Helical flute for swarf to easily get out; standard 118-degree point configuration is ideal for general purpose drilling applications
- Titanium coating increases the ware-resistance and durability of the drill bit, effect long life drilling
- Multi-purpose Use: Drills accurate and clean holes in thinner, low hardness of wood and soft-metal hole processing, for home repairs and light jobs

Model	RH-5352
Size	3.5mm
Material	High speed steel
Standard	DIN 338
Supplied in	Ronix plastic box
