

Jigsaw Blade

RH-5605

- Fully hardened, HSS & HCS material with precision teeth that stay sharp for a long time
- T-shank design allows easy blade mount & remove, maximal grip and ongoing stability
- 6 to 12 TPI progressive tooth design secures high endurance, high-speed cuts and longer life in varied thicknesses of different materials
- Ideal for accurate, fast, straight & rough cuts used by professional carpenters, DIYers, home improvers, electricians, general contractors, roofers, plumbers, frame, drywall & maintenance workers, and general industrial woodworkers on all soft woods like cedar, fir, pine and redwood, in addition to engineered wood like plywood, laminate, glulam, particle board, fiberboard, oriented strand board, plastic and construction lumber and all metalworking industries
- 5 blades in one color card package

Model	RH-5605
Type	T111C HCS jigsaw blade
Blade Length	100 mm
Shank Type	T-shank
Blade Material	HCS
Teeth per Inch (TPI)	8
Cutting Thickness Range	4.0-50 mm
Ideal Material for Cutting	Softwood and non-abrasive woodworking materials
