

Masonry Reciprocating Saw Blade
305mm**RH-5625**

- High wear resistance and hardness of HRC48-52, It's not easy to break and has a long life.
- 12.7mm-2TPI reciprocating saw blades designed for cutting hollow bricks, concrete blocks, and similar materials for masonry and building projects.
- Works with all major reciprocating saw brands, porter & cable.
- Carbide-tipped technology enhances wear resistance and extends service life.
- Efficiently cuts hollow bricks, concrete blocks, and similar materials for masonry and building projects.

Model	RH-5625
Material	50CRV4+YG8
Hardness	48-52HRC
Tooth Size	12.7mm
TPI (Tooth per Inch)	2TPI
Overall Length	305mm
Working Length	260mm
Cutting Way	Straight
Weight	108g
packaging	Blister card package
