

Hand Held Pressure Sprayer

RH-6001

- Made of high-quality PE material that allows you to clearly see the remaining liquid capacity scale through the transparent bottle
- The high-quality brass nozzle can adjust the intensity of the water spray from direct injection to fine mist spray
- Ergonomic handle not only reduces fatigue, but also facilitates long-time spray operation
- The trigger at the handle can be locked for continuous spraying with a steady amount of water
- Equipped with a safety valve that automatically relieves pressure when the pressure exceeds the desired amount
- Heavy-duty tank, stable and resistant high-efficient pump
- Multipurpose Spray Bottle, ideal for spraying water or other liquids during household cleaning, spraying weeds, curing plants and flowers, etc
