

Coil Hose

10m

RH-6110

- Coiled polyurethane hose for a wide range of industrial applications
- Constructed from 5*8mm(ID×OD)mm lightweight polyurethane (PU) for extra strength and longevity
- Single-layer PU tube resistance to abrasion, weathering, and most oils and fuels
- Long length strong spring has been connected to couplers for better working maneuver
- Remains flexible even in cold weather, which reduces user fatigue and helps protect delicate objects
- Maximum pressure rating of 25bar
- Equipped with big body (SP+PP)-touch Japanese type coupler
- Ideal for air compressors, nailers, sprayers, staple guns, and other pneumatic tools

Model	RH-6110
Length	10m
Max Hose Pressure	25Bar
Hose Material	Taiwanese PU
Coupler Type	Japanese Type
Spring Thickness	13mm
Packaging	Color Box
Accessories	Coil Hose
