

**Air Unit**

**RH-6901**

- Made of high-quality PC, strong and more durable, with long service life
- A multi-function tool with compact design which combines the functions of both air filter and regulator
- With using this filter, you can ensure that only dry air is used for quality output and achieve protection for your air tools
- This air filter regulator can remove solid particles and condensates with compressed air to prepare air properly for many types of compressed air tools and equipment
- With the adjustable pressure control knob, you can easily set the desired pressure between 10 to 120 Psi for more accurate job
- It has a 1/4" air inlet, and can withstand operating temperatures from 5°C to 60°C
- Site-as close to the unit to be protected as possible

Model	RH-6901
Temperature Range	5°C to 60°C /40 to 140 F
Pressure Range	10-120 Psi
Max Pressure	140 Psi (9.9 Kg/cm <sup>2</sup> )
Case Material	P.C
Supplied in	Ronix color box
Air Inlet	1/4 Inches
