

**Wood F-Clamp**

**RH-7211**

- Clamping jaws are made of high-quality malleable cast iron
- Plastic caps to prevent scratch marks and pressure points on the workpiece
- Comfortable wooden handle for strong clamping
- Small design for easy handling
- Lighter duty clamp for delicate projects
- Galvanized spindle for longer life and higher pressure in different clamping positions
- Suitable for universal use and high-clamping pressure
- Secures the workpiece for precision cutting, sanding, routing or other applications

Model	RH-7211
Clamping Capacity	200mm
Jaw Size	50mm
Standard	DIN 5117
Bar Material	Steel alloy
