

Earth Clamp
500A

RH-9081

- Good wear resistance this welding ground clamp is processed by electroplating
- Good conductivity adopting high quality copper,
- Perfect replacment this welding ground clamp is perfect replacement part for manual welder, with stable performance, high reliability
- Heavy duty work clamp with squeeze spring adjustments
- Rated 500 amps
- Having good wear resistance, could be used for a long period
- The welding ground clamp has good conductivity, easy to assemble and use

Model	RH-9081
Handle material	Iron Sheet
Body material	Iron Sheet
jaw material	Iron Sheet
Amps	500A
Dimention	240mm
Weight	400g
Style	American style
Include	Cable lug
Spplide in	Color box
