## Vernier Caliper
150mm

RH-9704

- Precision caliper analogue has a reading accuracy of 0.03mm vernier reading below. Perfect caliper with inch and metric scale
- Pocket caliper measuring tool can mainly be used for measuring diameter, depth gauge for external measurement, internal measurement, depth measurement and step measurement
- Metric/inch vernier scale caliper is a robust analogue measuring device with easy-to-read metal scale, depth bar and raised guideways for glare-free reading
- Monoblock vernier caliper is made of stainless tool steel, matt chrome plated, hardened, it is robust, stylish and durable
- 150mm caliper with locking screw, monoblock with vernier slide, scale caliper for 4-fold measurement, delivered in a robust storage box

Model	RH-9704
Accuracy	±0.03mm
Measurement Range	0-150mm
Material	4Cr13
Length	150mm
Dimensions	236mm
Weight	155g
Caliper Type	Vernier
Unit of Measurement	Inch and mm
Supplied in	Plastic Box
